HANDLE
with love

Cabinet

handles

Yes. We handle each of our creations with love. That's the only way we know, you see. For us, it is not just the form, shape, and size of our products that shares a major part of our raison d'être but also the love & passion to craft every single of them. Created with a great deal of attention to detail, they are for a connoisseur like you. From design board to delivery van, these superlative statements of lifestyle pass through our signature style of working that could be translated in two words – no compromise.

The next pages of this catalogue are a verbo-visual voyage into a mesmerizing world of – just – handles. Take your pick from this ensemble of aesthetics and fall in love with life all over again.

Amor!
